FUND OBJECTIVE

The Fund is designed for investors seeking a broadly diversified exposure to non-North American equities (Europe, Australia, and the Far East) with investment decisions based on value investing. The Fund is managed by Sprucegrove Investment Management Ltd. of Toronto. Prior to founding Sprucegrove Investment Management in September 1993, the Sprucegrove Investment Management team managed the Confederation Life International Pooled Fund since its inception in 1985.

INVESTMENT STYLE

We utilize a value approach to stock selection, applying bottom-up, fundamental analysis to all investment decisions. Our investment goal is to protect our client's capital while offering superior investment growth, regardless of economic conditions. We seek to invest in companies with stable earnings with a long term business model and management team that we have a high level of comfort in. We focus on finding companies with a proven track record of paying and increasing their dividend over time.

As value investors, we tend to include companies in the portfolio when they are "out of favour" by the market and have declined in price. Companies can become undervalued when there is a lack of investor awareness, when an entire industry is out of favour with investors, or when a company experiences a short-term difficulty which, following careful analysis, we believe can be overcome. By purchasing these companies after a price decline, we find we are able to control risk in the portfolio as these investments often have less downside risk while offering a decent potential return.
